SUMMARY

Versatile UI/UX Designer and Product Management enthusiast with a strong foundation in user-centered design and product lifecycle management. Skilled in Figma, prototyping, and design systems, with experience creating intuitive, visually engaging web and mobile interfaces. Proficient in Agile practices and roadmap planning, aligning user needs with business objectives to deliver seamless, impactful digital products. Adept at collaborating across teams to transform ideas into scalable solutions that drive both usability and business value.

EXPERIENCE

Product Designer
at Novus Ark

📅 Present Vadodara, Gujarat

Designing web and mobile interfaces for client-based projects at a service-based company.
- Responsible for end-to-end design—from research and wireframing to high-fidelity UI and prototyping.
- Collaborate with cross-functional teams to deliver user-centric, scalable, and visually consistent solutions.
- Focus on delivering intuitive, accessible, and visually engaging interfaces tailored to each client's needs.

UI/UX Intern
at Novus Ark

📅 11/2023 - 07/2024 Vadodara, Gujarat

A company specializing in the design and development of digital interfaces.
- Collaborated with the design and development team to create intuitive and user-friendly interfaces for web and mobile applications.
- Gained hands-on experience in wireframing, prototyping, and user research using tools like Figma.
- Contributed to real-time client projects while learning industry-standard UI/UX practices, responsive design principles, and scalable design systems.

PROJECTS

RK Credit First Application

📅 03/2025 - 04/2025

Prototype for a credit card management app inspired by **Unicard**
- Designed an intuitive credit card management app prototype using Figma, focusing on clean and user-friendly experience.
- Developed wireframes. high-fidelity prototypes. and user flows for features such as expense tracking. bill reminders. and card management tools.

Loyallty Dashboard Application

📅 04/2025 - 06/2025

Prototype for a **Loyallty** Rewards Application Inspired by Modern Brand Programs
- Designed a loyalty rewards app prototype using Figma focused on ease of use and modern aesthetics.
- Developed wireframes, high-fidelity prototypes, and user flows for core features such as real-time reward tracking, point redemption, offer filtering by category/location, and user profile management.
- Ensured a seamless reward experience by prioritizing intuitive navigation, responsive layouts, and minimal user friction.
